

Gentlemen-I support the XM Satelite Radio efforts because:

- 1.) Satellite radio provides variety and quality that are not available elsewhere. I travel 156 miles each way weekly to the airport, and I enjoy the availability of the type of broadcast I want to listen to.
- 2.) I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to listen to.
- 3.) I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that we subscribers demand and deserve.

Thank you.

Sincerly,

William D. Wold
